

## Stebel Horn Bracket for '07 Ninja 250

1. Print out this drawing full size (The nailing plate is 5"x8").
2. Glue the drawing to the Simpson PSPN58Z nailing plate (Home Depot), I used 3M-77 spray glue.
3. Cut out the bracket using a jigsaw, drill the three holes, clean and debur the bracket, bend the tab, lastly paint the bracket.
